

# Spilfyter® Grab & Go® Pads

Spill management doesn't have to be a hassle. Stay one step ahead in keeping your facility safe and clean with Spilfyter Grab & Go Pads. Hang these sorbent tablets around your facility to ensure your spill response is quick and easy.

## Spilfyter Grab & Go Pads are...

**Portable** - Simple, lightweight and easy to tear, just grab the tablet and go to the spill. *No need to carry a whole bale or box, just tear off what you need.*

**Convenient** - strategically place these sorbent tablets throughout your facility for a quick and easy response to spills. The pop up hanging tabs make it easy to post your Grab & Go pads where you need them.

**Safe** - Your tablet's highly visible sorbent pads have a durable, tear-resistant coverstock printed with a built-in caution/warning sign. *Safe for traffic areas and no "wet floor" sign required.*

**Absorbent** - Grab & Go pads absorb most common industrial spills and are made from highly absorbent and efficient meltblown polypropylene. Each tablet absorbs about 2 gallons of fluid.

*The printed spunbond coverstock on top also makes each Grab & Go Pad perfect for lint-free wiping of spills.*
