**Spilfyter® Oil-Only Pump and Drill Sorbent Sock Collar**

**Fracking**

**! PROBLEM:** leaking or spill hydrocarbons at the point of drill head insertion

**✓ SOLUTION:** Spilfyter® Oil-Only Pump and Drill Sorbent Sock Collar

- » Absorbs oil or hydrocarbons while repelling water
- » Perfect method for capturing leaks and spills that may occur from the drill head insertion point (stuffing box)
- » Convenient one-size-fits-all design for easy installation and removal
- » White collar shows when sock is saturated and needs replacement

**Land Drilling**

**! PROBLEM:** leaking or spill hydrocarbons reaching the ground during drill process

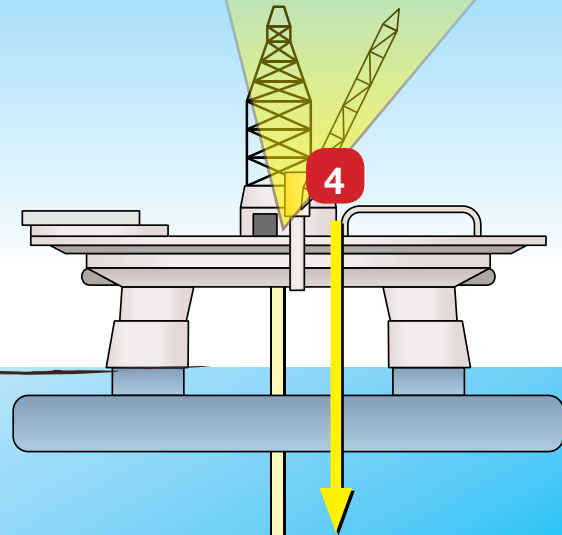

**✓ SOLUTION:** Spilfyter® Standard Oil-Only Sorbent Rug

- » Absorbs oil or hydrocarbons while repelling water
- » Use as a liner for drilling platforms or oil rig areas
- » M-149 contains two pieces with a center hole cut out to fit around a wellhead entry point at ground level
- » Poly-backing keeps fluids from reaching the ground or soil avoiding costly soil remediation

Spilfyter® Booms

Spilfyter® booms form a floating migration barrier to contain and absorb oil spills on water. They continue to float while fully saturated. Use as a barrier in holding ponds to retain waste and debris.

SFO-Series Sorbent Pads

Streetfyter® pads and rolls are non-bonded for 100% absorption capacity. Packaged in bags for confinement outside storage.

TR-90 Traffic Rug

Needle Punch Traffic Rugs are extremely durable and resists tears. Designed for high traffic areas and harsh conditions. They absorb all liquids to include water, oils, solvents and coolants.

DS-93 Sorbent Roll

Unique spunbond-meltblown product printed with a pattern to "hide" unsightly spills. Drips and leaks virtually disappear by drawing liquids into the inner meltblown layer.

**ALSO AVAILABLE:**

*Spill Kits*

*Specialty Spill Control*

*Industrial Wipes*

WASTE DISPOSAL METHOD: All Spilfyter<sup>®</sup> sorbents in themselves are considered to be non-hazardous as defined by RCRA (40 CFR 261). However, once used, these products will take on the characteristics of the chemical absorbed and should be disposed of in accordance with all applicable local, state and federal regulations.
