

Drain Seal 42" x 42"

Features:

- Stop Spills From Going Down The Drain.
- Reinforcing mesh is "sandwiched" between layers of polyurethane - increases durability and resistance to tearing.
- Unique, urethane construction allows the pad to deform and seal off most drains - temporarily "seals" to any smooth surface.
- A valuable addition to any emergency response plan, spill kit, SPCC or stormwater management program.
- Unlike some alternative products, BOTH sides will quickly seal drains - there is no specified "top" or "bottom".
- Resists oil, water and most aggressive chemicals, cleans with soap and water.
- Note: Not intended for long-term outdoor use (more than two [2] hours), as UV exposure and/or heat for extended periods can degrade the product.
- Made in the USA.
