

## Spill Deck P2 Bladder System

### Features:

- Hidden containment bladder automatically unfurls to capture large spills or drum leaks.
- Ultra-Spill Deck Bladder Systems are low profile, polyethylene containment decks which meet EPA and SPCC Spill Containment Regulations.
- Available in 1, 2 and 4-drum modules, the low 5 3/4" deck height allows safe and convenient drum loading, even without drum handling equipment.
- Add the optional polyethylene loading ramp for even greater handling ease.
- Compact footprint saves valuable floor space - perfect for drum waste collection usage.
- Use the Spill Deck Bladder Systems in place of taller containment pallets - low 5 3/4" deck height offers significant safety and handling benefits.
- Overspills and small leaks are captured in the sump; catastrophic leaks deploy the bladder, allowing the system to meet regulations.
- Spill Deck Bladder Systems require adequate aisle space to allow the Bladder to unfurl properly.
- Rugged polyethylene bladder provides 66 gallons of additional containment.
- Polyethylene bladder is housed inside the Bladder Attachment.
- Connect the Bladder Attachment to the Spill Deck in seconds - no tools required!

### Specifications:

<b>Brand</b>	UltraTech
<b>Product Category</b>	Secondary Containment
<b>Product Type</b>	Spill Deck
<b>Color/Colour</b>	Yellow
<b>Package Count</b>	1
<b>Containment/Sump Capacity</b>	88
<b>Safe Working Load/Load Capacity (UDL)</b>	3000

(800) 615-8699

### Logistics:

<b>Shipping Height (in)</b>	7
<b>Shipping Length (in)</b>	60
<b>Shipping Width (in)</b>	27
<b>Shipping Weight (lb)</b>	45
<b>Pallet Count</b>	20
<b>Shipping Class</b>	125
