

Spill Deck P4 Bladder System

Features:

- Hidden containment bladder automatically unfurls to capture large spills or drum leaks.
- Ultra-Spill Deck Bladder Systems are low profile, polyethylene containment decks which meet EPA and SPCC Spill Containment Regulations.
- Available in 1, 2 and 4-drum modules, the low 5 3/4" deck height allows safe and convenient drum loading, even without drum handling equipment.
- Add the optional polyethylene loading ramp for even greater handling ease.
- Compact footprint saves valuable floor space - perfect for drum waste collection usage.
- Use the Spill Deck Bladder Systems in place of taller containment pallets - low 5 3/4" deck height offers significant safety and handling benefits.
- Overspills and small leaks are captured in the sump; catastrophic leaks deploy the bladder, allowing the system to meet regulations.
- Spill Deck Bladder Systems require adequate aisle space to allow the Bladder to unfurl properly.
- Rugged polyethylene bladder provides 66 gallons of additional containment.
- Polyethylene bladder is housed inside the Bladder Attachment.
- Connect the Bladder Attachment to the Spill Deck in seconds - no tools required!

Specifications:

Brand	UltraTech
Product Category	Secondary Containment
Product Type	Spill Deck
Color/Colour	Yellow
Package Count	1
Containment/Sump Capacity	110
Safe Working Load/Load Capacity (UDL)	6000

Logistics:

Shipping Height (in)	7
Shipping Length (in)	52
Shipping Width (in)	52
Shipping Weight (lb)	70
Pallet Count	10
Shipping Class	125
