

## Spill Diaper

### Features:

- Capture leakage of fluid from construction equipment, vehicles and other machinery to prevent environmental damage and fines.
- Flexible and adjustable bungee cord/hook attaching system works on almost any vehicle.
- Three-layer absorbent material; top layer is a general absorption allowing antifreeze and acids to be absorbed, the middle layer being a thick oil-only material to absorb oil, gas, diesel and all hydrocarbons, bottom layer is a 4 mil plastic barrier to keep any fluids from leaching through.
- Quick and easy installation- simply attach hooks to secure points on vehicle/equipment for proper placement under leaks or drips.
- Folded, compact design stores easily in truck cabs, spill kits or other areas for quick deployment when needed.
- Helps meet state Litter Control Acts as well as EPA Spill Prevention, Control and Countermeasure (SPCC) Regulation.
- Made in the USA.
