

Spilfyter 5" x 10' AquaSpill Rapid Recovery Boom

Features:

- New boom designed to recover surface oil better and faster than traditional boom.
- Specifically designed for marine-based spills and open water, the AquaSpill Rapid Recovery Boom takes advantage of the natural movement of the ocean, bay or lake.
- Twisted strand construction creates additional layers and crevices to enhance the available surface area and capture surface oil faster than traditional boom which is limited by its uniform surface.
- Speed up the removal of petroleum-based fluids and environmental recovery.
- UV-resistant ropes and nickel steel clips aid in boom deployment and management.
